

K-Love starts and ends my day - everyday. It is very uplifting. I dont have to worry about small children/teenagers listening, and I dont have to hear commercials, talk about sports, violent news stories, etc. It would be very sad for me and the people in my Church and community who would not be able to hear it if it were taken off the air. If anyone were having any kind of problems K-Love is the place for them to go and get encouragement and even be able to speak with someone on the phone to help them thru a crisis, and might be a life saver for someone. It is in the best interest of young people to have this station be on the air and not fill its spot with music that has fowl language, words they dont understand, rap music with tones of violence or love songs with a sexual nature. K-Love is a wonderful, positive radio station and a great station for children and young adults to be listening to. Please DO NOT REPLACE IT !!!
